

FOLLOW-UP CARE FOR CHILDREN PRESCRIBED ADHD MEDICATIONS

Please join us for a Quality Improvement webinar

Topic: ADHD HEDIS Measure Description (Initiation Phase)

Date: Friday, January 29, 2021

Time: 12:00 pm-12:30 pm

Attention-deficit/hyperactivity disorder is one of the most common behavioral health disorders in children. To ensure medication is prescribed and managed correctly, it is essential that children be carefully monitored by a practitioner with prescribing authority.

Portia Green, Scott and White Health Plan's Clinical Quality Improvement Coordinator, will host a presentation on follow-up care for children prescribed medications for attention-deficit hyperactivity disorder. This presentation is part one of a two-part series on the initiation and continuation phases of ADHD treatment.
